PGP 8503 – Teaching Practicum

Observation Protocol (for Mentors and Supervisors)

Name of Student: A.N. Sumanasena

Date and time: 18.05.2026

Name of Mentor/Supervisor: G.P.M. Perera

Place: A/Gaminiwewa Viduhala.

Language skills and functions taught: Capitalization.- Grade 06

Evaluate the student based on the criteria given below. Please use additional paper if necessary.

Write down specific example(s) from the teaching observation to support your comment.

	Criterion	Comment
1	Classroom management	Classroom was managed effectively. However, monitor all groups consistently to ensure equal participation from every learner.
2	Teacher talks time vs. student talk time	Good questioning techniques were used. Teacher talk was slightly high during the presentation stage. Provide more opportunities for learners to discuss and discover the rules independently.
3	Rapport with students	Positive rapport was evident. Learners responded confidently. Continue encouraging quieter learners to participate more actively.

4	Scaffolding	Activities progressed logically from guided to independent practice. More prompting through questions, rather than direct support, would strengthen learner thinking.
5	Pacing and timing	Lesson stages were completed within the allocated time. A little more time for learner discussion and reflection would improve learning.
6	Monitoring and feedback	Teacher monitored learners and provided timely support. Increase peer feedback and self-correction before giving teacher feedback.
7	Communicative focus of materials, tasks, and activities	Teaching materials supported the lesson objectives well. Include more meaningful learner interaction so students use the target language for communication, not only for completing tasks.
8	Balance and variety of tasks	A good range of activities maintained learner interest. Consider adding one creative or problem-solving task to promote higher-order thinking.
9	Appropriateness of Teaching methodologies	Guided discovery was appropriate for this lesson. Allow learners more opportunities to identify language patterns before teacher explanation.
10	Facilitation of students' independent learning	Independent writing promoted learner responsibility. Encourage learners to justify and explain their answers during peer checking.

Positive features of the lesson:

- x Well-organized and learner-friendly lesson.
- x Appropriate teaching aids supported learning.
- x Learners were actively engaged throughout the lesson.
- x Activities followed a logical progression.
- x Good classroom rapport and monitoring.

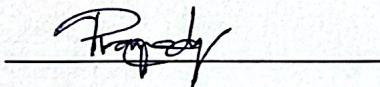

Points to work on for the next lesson:

Provide more opportunities for learners to explain the reasons for their answers. Include a short editing activity using learners' own writing before the final assessment.

Overall comment:

The lesson was well planned and suitable for grade 6 learners. The teacher used appropriate teaching methods and materials to promote active participation and successfully achieved the lesson objectives.
