Classroom Management Plan

Component	Details
Classroom Management	Students will work individually, in pairs and in mixed-ability groups. Slow learners and learners who need additional support will be seated near supportive peers. The teacher will provide sentence starters, word cards, repeated examples and oral drilling to help them understand the structure. Fast finishers will be given extension questions to avoid idling. The teacher will monitor weaker learners closely during pair, group and individual activities.

Lesson Procedure

STAGE 1: Setting the Scene (5 minutes)

Component	Details
Stage Aim	To activate prior knowledge and introduce the interrogative form of the simple present tense questions naturally.
Teacher Activity	The teacher greets the class and displays three pictures on the smart board showing children playing football, reading books and riding bicycles. The teacher asks simple questions such as: • Do you play football? • Do you read story books? • Does your mother cook dinner every day? Students respond naturally. The teacher then plays a one-minute video containing simple present tense questions and introduces today's lesson.
Learner Activity	Students observe the pictures and video, answer the teacher's questions and share their own daily habits.
Support for slow learners	The teacher accepts one-word answers first, such as “Yes” or “No”, and then expands them into full answers. Picture prompts are used so learners do not depend only on written language.
Interaction	Teacher ↔ Students
Materials	Smart board, PowerPoint, Short video
ILOs	ILO1, ILO4
ICQs / Assessment	ICQs • Are we answering or asking questions? • Did you hear "Do" or "Does"? • Are these daily activities? Assessment Observation of oral responses.

STAGE 2: Presentation (8 minutes)

Component	Details
Stage Aim	To introduce the structure of the interrogative form.
Teacher Activity	The teacher displays Annex 01 and explains: Do + I / You / We / They + base verb? Does + He / She / It + base verb? The teacher highlights the word order using colour coding and demonstrates several examples.
Learner Activity	Students repeat the examples, identify subjects and auxiliary verbs, and compare affirmative and interrogative sentences.
Support for Learners	The teacher uses colour coding: Do/Does in one colour, subject in another colour and verb in another colour. Slow learners receive a simple structure strip: Do / Does + Subject + Verb + Object? The teacher repeats examples orally and checks understanding using simple yes/no questions.
Interaction	Teacher ↔ Students
Materials	PowerPoint, Annex 01, board
ILOs	ILO1,2,3
ICQs / Assessment	ICQs • Which auxiliary do we use with "He"? • Which auxiliary do we use with "They"? • Does the main verb change after "Does"? • Do we use Does with "she"? • Do we add "s" to the verb after Does? • Which is correct: Does she reads? or Does she read? Assessment Oral questioning and teacher observation.

STAGE 3: Guided Practice (Pair Work) (8 minutes)

Component	Details
Stage Aim	To practice forming questions collaboratively with peer support..
Teacher Activity	The teacher distributes Annex 02 . Each pair changes affirmative sentences into interrogative sentences and then asks the questions to their partner.
Learner Activity	Students complete the worksheet, discuss answers and practise asking and answering questions.
Support for Learners	Slow learners are paired with supportive peers. They are allowed to use the structure strip and grammar chart while completing the task. The teacher gives the first two answers as guided examples before learners continue independently.
Interaction	Student ↔ Student
Materials	Annex 02
ILOs	ILO 2,3,4
ICQs / Assessment	ICQs • Are you working with your partner? • Should every sentence begin with Do or Does? Assessment Teacher monitoring and peer checking.

STAGE 4: Production (Group Work) (8 minutes)

Component	Details
Stage Aim	To encourage meaningful communication using the target structure.
Teacher Activity	The teacher divides the class into four mixed-ability groups and gives Annex 03 – Question Card Challenge. Groups arrange jumbled words into correct questions and ask another group. Students work in four groups. Each group receives Annex 03 – Question Card Challenge. Learners arrange jumbled words into correct questions and ask another group the questions.
Learner Activity	Students work in four groups. Each group receives Annex 03 – Question Card Challenge . Learners arrange jumbled words into correct questions and ask another group the questions. Students discuss, construct questions and conduct a mini interview with another group.
Support for Learners	Each group has simple question cards with colour cues. Slow learners are given easier cards first, such as “Do you play?” before moving to longer questions. The teacher encourages them to read one question aloud with group support.
Interaction	Group ↔ Group
Materials	Annex 03
ILOs	ILO 3,4,5
ICQs / Assessment	ICQs How many questions should your group make? Will your group ask another group? Should the question end with a question mark? Assessment Teacher observes communication and provides immediate feedback.

STAGE 5: Individual Practice and Assessment (8 minutes)

Component	Details
Stage Aim	To assess individual understanding.
Teacher Activity	The teacher distributes Annex 04 . Students complete the worksheet independently. Early finishers complete Annex 05 – Exit Ticket .
Learner Activity	Students answer individually.

Teacher Reflection

Component	Details
Reflection	Pre-teaching Reflection I expect students to understand how to form and use simple present tense questions correctly with Do and Does. I have planned interactive questioning, pair work and communicative group activities to encourage meaningful language use. I will provide additional practice and scaffolding for learners who experience difficulty with question formation. By the end of the lesson, I hope students will confidently ask and answer simple present tense questions. Post-teaching Reflection Most learners were able to understand that simple present tense questions are formed using Do and Does. The smart board pictures and guided examples helped learners connect the grammar point with real-life daily activities. Pair work and group work supported learner participation and gave weaker learners a chance to learn from peers. However, some slow learners found it difficult to choose between Do and Does and sometimes added “s” to the main verb after Does. These learners needed repeated examples, structure strips and teacher guidance. The use of mixed-ability groups, sentence starters and colour-coded examples helped them participate more confidently. In future lessons, I will provide more oral drills, short practice cards and differentiated worksheets for learners who need additional support. I will also include extension questions for fast finishers so that all learners remain engaged throughout the lesson.
