Language skills and functions taught:

Evaluate the student based on the criteria given below. Please use additional paper if necessary.

Write down specific example(s) from the teaching observation to support your comment.

	Criterion	Comment
1	Classroom management	Classroom management was effective with pair work, group work, clear short instructions and ICAs. Also encouraged learners and gave support where necessary.
2	Teacher talks time vs. student talk time	The teacher maintained an appropriate balance of teacher talking time, providing clear explanations of the content and allowed ample opportunities for students.
3	Rapport with students	There was a good relationship with students throughout the lesson. Interacted with learners in a friendly, supportive way, promoting them always.

4	Scaffolding	The lesson was scaffolded well so that it makes for learners easy to understand. There were different activities for each stage and materials were supportive.
5	Pacing and timing	There was a balanced distribution of time for lesson stages and it made a easy flow of the lesson.
6	Monitoring and feedback	The teacher monitored all pairs, groups and individual attention where needed. Also gave positive feedback while activities and monitoring.
7	Communicative focus of materials, tasks, and activities	The selected materials, tasks and activities encouraged students to engage in the lesson and also to understand the content.
8	Balance and variety of tasks	The lesson was attractive for learners as the teacher used variety of tasks but some task sheets should be big enough.
9	Appropriateness of Teaching methodologies	The teacher maintained a learner-centred methodology that engaged students actively. And they focused on lesson objectives and students' needs.
10	Facilitation of students' independent learning	There was a supportive learning environment in the class that motivated students to focus on the work.

Positive features of the lesson:

First the lesson planning is effective for a meaningful lesson and the content is matching for the level of the students.

The prepared materials and selected activities supported the teacher for a successful lesson.

The rapport with students and the monitoring made the lesson more attractive.

Points to work on for the next lesson:

It's better if you can plan the work to make greater use of digital tools and resources to increase student engagement and learning styles.

Overall comment:

This was an effective and successful lesson which came out with all necessary stages, activities, and student engagement. Wish you all best to be a successful teacher in your profession.
